

Authorized Retreads

Precure G338™

**Lasting Treadwear Under
High-Torque Conditions of Single-
Axle Vehicles.**

- Equals similar new tire design for long treadwear per 32nd of tread depth
- 27/32" tread depth for long tread wear
- Goodyear's long wearing tread rubber compound provides traction & handling equal or better than the similar new Goodyear tire
- 11-sided "crown" shaped tread lug for better traction in mud, snow or "slushy" traction conditions, with sipes in each lug element for good on-highway riding stability
- Open shoulder allows good maneuverability at low speeds while maintaining good traction
