

Authorized Retreads

Precure G286™ SS

**Mixed Service Wide Base Tire All
Position Applications**

- Goodyear exclusive tread rubber compound provide treadwear per 32nd" of tread depth equal to equivalent new tire performance
- Traction & handling equal or better than the similar new Goodyear tire
- 9-sided "Chevron" shaped center line tread elements – for good mud, snow or "slushy" traction
- 3-tread grooves to keep water and debris from tread face and to maintain traction
- Solid shoulder allows quiet ride on highway, good tear resistance in off road operation
- Staggered and buttressed shoulder resists tearing
- Slots in shoulder and tread elements provide lateral and circumferential traction
- 18/32" and 22/32" tread depths
